Campbell's New Generation Marine

Somer's Point, NJ

2007 Spring Awards

In Appreciation...

Presented by Past President Mary Ann Thomas

One of the best parts about being president is presenting awards to recognize the people who help make EPSC what it is. A lot of work--much of it behind the scene--takes place throughout the year; there is always so much to be done.

The **President's Award** is presented to two volunteers this year: **Kathy Domenick** and **Lydia Hill**.

I could have not have functioned without Kathy Domenick during my two years as president. No job is too much for Kathy. She serves as corresponding

secretary, but is always right there when something else has to be done. She probably lives the farthest away from most meeting places, but we can always count on her being there and pitching in. Her incredibly positive attitude makes her a pleasure to work with.

Lydia Hill is into everything (and in a good way). You all know Lydia's phenomenal work as editor of Snow Drifts--a source of pride for us all. But, you may not know how many other things ways Lydia has contributed to EPSC. Here are just a few:

- * Stepping up with some preliminary organization on this year's President's Picnic. (We may not have had one had it not been for Lydia's early role.)
- * Lending a hand on the auction, while providing tremendous support to all involved, including many of our first time volunteers.
- * Providing information and detailed reports during our board and general meeting on the Federation, Snow Drifts, Advertising.

EPSC would be lost without the many, many contributions of Lydia.

Flying Dutchmen named Club of the Year

Every year, thankfully, so many volunteers from so many different clubs pitch in to sustain the Council, but it's time to recognize one club that time and again supports EPSC with participation in Winter Carnival and Racing. Flying Dutchmen successfully hosted last year's general dinner meeting, gave us our new president and came through when we needed a new chair for the Senior Alpine Race at Blue Mountain (and it was quite a race with many, many obstacles thrown in the way). All this, while growing their membership in times when other clubs are losing members. How? Just ask them, they are more than willing to share their experiences and insights on what makes their club great.

Frank Cressman receives the Fritz Koenig Award

Frank Cressman, has always been there for EPSC. He promotes skiing by making sure everyone has an opportunity to learn and improve skiing on Monday nights. He lead his own club, Main Line, to host the Winter dinner meeting. And, he has been our #1 presenter for the Senior Alpine the last couple of years. Frank is the guy we turn to over and over again and I'm pleased to recognize him for his many,
